

LEARNFLEX™ EVALUATOR

LearnFlex™
▷ is the perfect fit for Learning Management

OVERVIEW

LearnFlex™ Evaluator is an advanced online assessment tool that works as an independent module, or as part of the highly adaptable LearnFlex™ Learning Management System (LMS). LearnFlex™ Evaluator is the first online assessment tool on the market that supports a balanced approach – mixing test data with performance assessment data to achieve the goal of “authentic assessment.” Because there are many aspects of human learning and knowledge that cannot be assessed directly by computers, LearnFlex™ Evaluator also allows the manual input of assessment and evaluation data, which can then be combined with data gathered directly by LearnFlex™ Evaluator or by third-party assessment software.

LearnFlex™ Evaluator is a powerful and adaptable assessment engine that allows a wide variety of assessment protocols. It features several ways of supporting performance assessment online with 10 types of online test questions. When linked to LearnFlex™, it allows data from third-party software, or from manual scoring, to be easily entered into the LearnFlex™ Evaluator database and used with the performance data and/or test results that it has collected. In the background, LearnFlex™ Evaluator can be collecting activity data such as times, attempts, participation, attendance, and errors. This can support the assessment picture being developed, and add to its completeness. It allows for gap analysis, needs assessments, and many forms of reporting. Integrated with a learning management system or a human resources information system, LearnFlex™ Evaluator can feed information to many other enterprise applications.

BENEFITS

- Supports an “authentic assessment” approach that blends a variety of testing types and performance evaluations.
- Can be a stand-alone assessment engine or can be integrated with LearnFlex™.
- 10 types of test questions.
- Performance assessment tools, such as rating scales and checklists.
- Feedback for wrong answers as well as correct answers.
- Ability to assign weighted scores to various answers.
- Links to evaluation of competencies.
- Question bank with randomization options.
- Answers can generate a personalized curriculum using the Competency Engine.
- Supports 360 ° degree performance evaluations.
- Test bank to store your tests.
- On screen test timers.
- Divide tests into sections, tasks, and questions.
- On screen progress meters.
- Print test results and certificates of accomplishments.
- Pause and return to tests later.

7 STAGES OF ASSESSMENT WITH EVALUATOR

Pre-assessment Administrative Tasks: LearnFlex™ Evaluator has extensive administrative functions that need to be used or reviewed before it can be used for assessment and evaluation.

Assessment Authoring: In this stage, tests, test questions, and performance tasks can be constructed in LearnFlex™ Evaluator for later use.

Presentation of Assessment Tasks: Here, an assessment task is presented to the user in order to evoke a response that generates relevant assessment data.

Record Assessment Data: Assessment data can be entered into the Evaluator database either automatically or manually.

Analyze Assessment Data: Once assessment results have been recorded and stored, they can be analyzed through various automated statistical procedures and through human analysis.

Evaluate Assessment Data against Comparison Data: Once assessment data is in the system, it can then be analyzed against comparison data, such as previous scores, standards, or benchmarks.

Generate Reports and Store, Export, and Use Assessment Data: Generate reports on assessment results. Assessment and evaluation data can also be stored and used by LearnFlex™ Evaluator or other programs in many different ways.

EVALUATOR QUESTION TYPES:

- Multiple Choice Questions
- Multiple Answer Questions
- True-False Questions
- Essay Questions
- Calculation Questions
- Matching Questions
- Likert Scale Questions
- Ranking Questions
- File Upload
- Single Answer Questions

1. Spain is a country in Europe

true
 false

Submit Answer

Progress	
North America	100%
Europe	0%
Africa	0%
